# Extemporaneous Public Speaking Leadership Development Event Handbook

Revised 2022

# Purpose & Objectives

## *Purpose*

The FFA Extemporaneous Public Speaking Leadership Development Event is designed to develop the ability of all FFA members to express themselves on a given subject without having prepared or rehearsed its content in advance. This gives FFA members an opportunity to formulate their remarks for presentation in a very limited amount of time.

# Event Rules

***\*\*If there are any questions or issues, the State FFA Advisor will make the final decision.\*\****

- It is highly recommended that participants wear FFA Official Dress for this event.
- Three to five competent and impartial persons will be selected to judge the event. Attempts will be made for at least one judge to have an agricultural/FFA background. Each chapter participating must provide a judge for the preliminary round.
- Any participant in possession of any electronic device, not provided by the event superintendent, in the preparation room is subject to disqualification.

# Event Format

Students will have 30 minutes to prepare a 4-6 minute speech. The state event will consist of a preliminary and final round. After the preliminary round, eight members will advance to the state finals. No scores carry over from the first round. Students will redraw and prepare a new speech for the finals. Eighteen topics will be prepared by the event superintendent and will include three each from the following categories:

- Agricultural literacy and advocacy
- Current agricultural issues
- Advancing agriculture through agriculture science
- Current technology uses and applications in agriculture
- Agrimarketing and international agriculture
- Food and fiber systems

# Equipment

## **Participants should provide:**

- Writing utensils
- Reference materials-The officials in charge of the event will screen reference material on the following basis:
  - Must be limited to five items
    - To be counted as one item, a notebook or folder of collected materials may contain no more than 100 single-sided pages or 50 pages double-sided numbered consecutively.
    - References should be in original format.
    - There can be no notes or speeches prepared by the participant or by another person for the purpose of use in this event. Cutting and pasting into a Microsoft Word document will be considered prepared notes.
    - Printed material such as books or magazines

- Printed compilations of materials collected from Internet research

### **Event hosts will provide:**

- Computers will be provided
  - Event staff will monitor the student site access.
  - Access to email, Dropbox or any prepared materials are prohibited and will result in disqualification.
- Notecards for contestants

## Team Activities

There are no team components to this event.

## Individual Activities

Flights will be seeded using the Patrick Model: Flights are to be determined by the draw was completed during the Spring Exec FFA Committee meeting and the draw shall be overseen by Washington FFA State Staff. First you draw a district and they are placed in flights moving from left to right. The goal is to try and have the same number of “1” seeds in each flight along with randomization from the districts.

### **Speech Preparation (Not Scored)**

The selection of topics will be held 30 minutes before the event. The participants will draw three specific topics, selected at random from the pool of 18, relating to the industry of agriculture. After selecting the topic they desire to speak on, all three topics will be returned for the next drawing.

Participants will be admitted to the preparation room at 15-minute intervals and given exactly 30 minutes for topic selection and preparation. Once the competition round begins, participants cannot leave the preparation room until they are escorted to the presentation room and deliver their speech. Participants will have 10 consecutive minutes as part of (not in addition to) the total 30 minutes for preparation to conduct online research.

Each speech should be the result of the participant’s own effort using approved reference material which the participant may bring to the preparation room. No other assistance may be provided. Participants must use the uniform note cards provided. Any notes for speaking must be made during the 30-minute preparation period. A participant will be permitted to use notes while speaking, but deductions in scoring may be made for this practice if it detracts from the effectiveness of the presentation.

A list of all possible topics will be given to and reviewed by the judges prior to the beginning of the event.

### **Speech Presentation (1000 Points)**

Each speech should be no less than four and no more than six minutes in length. An additional five minutes will be allowed for the questioner to ask related questions. The room coordinator of the event will introduce the participant by name and chapter. The participant may introduce his or her speech by title only.

Participants will be penalized one point per second on each judge’s score sheet for being over six minutes or under four minutes. Time commences when the speaker begins talking. Speakers may use a watch to

keep a record of their time. Event officials or observers will give no time warnings. Timekeepers will record the time for each participant in delivering his or her speech, noting under time or over time, if any, for which deductions should be made.

At the time of the event, the judges will be seated in a designated section of the room in which the event is held. They will score each participant on the delivery of the production using the score sheet provided. Each room in all rounds will have one person designated as a questioner. This individual will ask and score all questions for the event round. Questions will pertain directly to the speaker's subject. Questions containing two or more parts should be avoided. Judges will score each participant on the ability to answer. The full five minutes should be used.

When all participants have finished speaking, each judge will total the score on each participant. The timekeepers' record will be used in computing the final score for each participant. The judges' will then rank each speaker based on their scores.

## Scoring

Participants will be ranked in numerical order based on the final score to be determined by each judge without consultation. The judges' ranking of each participant then will be added, and the winner will be the participant whose total ranking is the lowest. Other placings will be determined in the same manner (low rank method of selection). Scorecards will be returned to chapters at the end of the state event.

## **TIEBREAKERS**

1. Ties will be broken based on the greatest number of low ranks. Participant's low ranks will be counted and the team with the greatest number of low ranks will be declared the winner.
2. If a tie still exists, then the event superintendent will rank the participant's response to questions. The individual with the greatest number of low ranks from the response to questions will be declared the winner.
3. If a tie still exists, then the participant's raw scores will be totaled. The individual with the greatest total of raw points will be declared the winner.
